

# TIP: Adhesives 101

**STICK TO IT!**

Know how to pick the right adhesive!

**Keep it together with Stampin' Up! adhesives. Don't let your paper crafting fall apart - from permanent to temporary, we have you covered!**

Knowing the right tool for the job makes any job easier.

Stampin' Up! has a full selection of adhesives specially designed for your paper crafting needs.

This handy guide will help you know just which adhesive is best for the job and why.

Print this guide and keep it in your craft area for easy reference.

## SNAIL

SNAIL is the go-to adhesive for card makers and memory keepers.

This double-sided adhesive dispenses from a handheld tape runner so it's easy to use and mess-free.

**TO USE:** Press tip to paper and pull backwards.

**BEST FOR:** Standard paper crafting and cards made from cardstock & paper.

## SNAIL REFILL

SNAIL Refills save money and reduce waste. Press tabs on case to remove empty cartridge. Remove yellow cardboard from new cartridge. Snap into case.

### DETAILS:

- \* 13.1 yards of adhesive
- \* Refillable
- \* Acid free

## FAST FUSE

Fast Fuse is an extra-strong adhesive ideal for 3-D paper crafting projects and cards with fancy folds because it can withstand strain from movement.

This double-sided adhesive dispenses from a handheld tape runner. It applies a tape-like, permanent adhesive. It is easy to control and is mess-free.

## FAST FUSE

**TO USE:** Press tip to paper. Pull backwards. **Important:** Before lifting from paper move sideways quickly with a check mark movement to break the tape.

**BEST FOR:** 3-D and projects that have movement and need a strong bond. Long term projects like memory keeping..

### DETAILS:

- \* 13.1 yards
- \* Refillable
- \* Acid free

## TEAR & TAPE

Tear & Tape is an extra-strong double-sided tape ideal for boxes & 3-D projects.

The tape comes on a roll with an easy to tear paper backing.

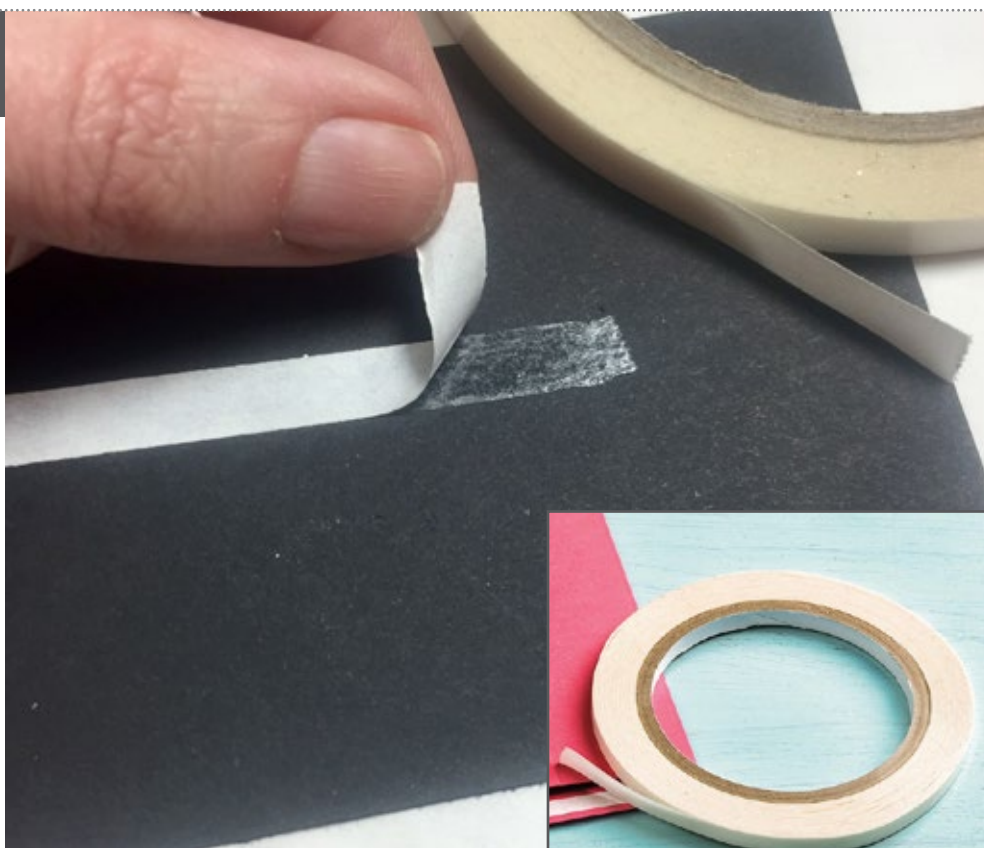

**TO USE:** Place tape on project, tear from roll. Press firmly to bond to paper. Remove backing.

**BEST FOR:** 3-D and projects.

**DETAILS:**

\* 1/4" wide x 17 yards

\* Acid free

## GLUE DOTS

Glue Dots are super sticky, mess-free, adhesive dots that are ready to use with no drying time.

Glue Dots are ideal for adding embellishments and small or detailed items like punched images or die cuts.

These handy little adhesive dots are favorites that you'll want to have on hand for a variety of projects.

**TO USE:** Unroll paper backing a bit to expose glue dots. Firmly press

## GLUE DOTS

embellishment or paper to a dot. Then lift to remove the dot from the backing paper. Press the embellishment with the glue dot to your project.

**BEST FOR:** Heavier embellishments and small items.

**DETAILS:**

- \* 300 dots
- \* 3/16" diameter
- \* Acid free

### TIP!

It can be tricky to insert the pin in the tip of the Fine-Tip Glue Pen. Rest the pin and the tip on your finger to line up and insert pin.

## FINE-TIP GLUE

The Fine-Tip Glue Pen's precision tip creates a thin line of glue perfect for adding tiny items and detailed die cuts.

**TO USE:** Twist off white cap with pin attached to prevent tip from clogging. Apply lightly to prevent bleeding. Allow to dry.

**BEST FOR:** Detailed and delicate die cuts, tiny embellishments and glitter.

**DETAILS:** \* Acid free

## LIQUID GLUE

Multipurpose Liquid Glue's strong bond is a crafter's favorite for embellishments and glitter. It has dual tips for fine or broad application. It's a low-cost choice for adhering cardstock layers.

**TO USE:** Apply lightly to prevent bleeding. Allow to dry. Dries clear.

**BEST FOR:**  
Embellishments,  
cardstock, & glitter.

**DETAILS:** \* Acid free

## DIMENSIONALS

Stampin' Dimensionals are double-sided adhesive foam dots that add depth and dimension.

**TO USE:** Remove from sheet. Place on paper. Poke center with finger to pop up backing edges for easier removal. Layer on paper.

**BEST FOR:**  
Creating depth and  
dimension.

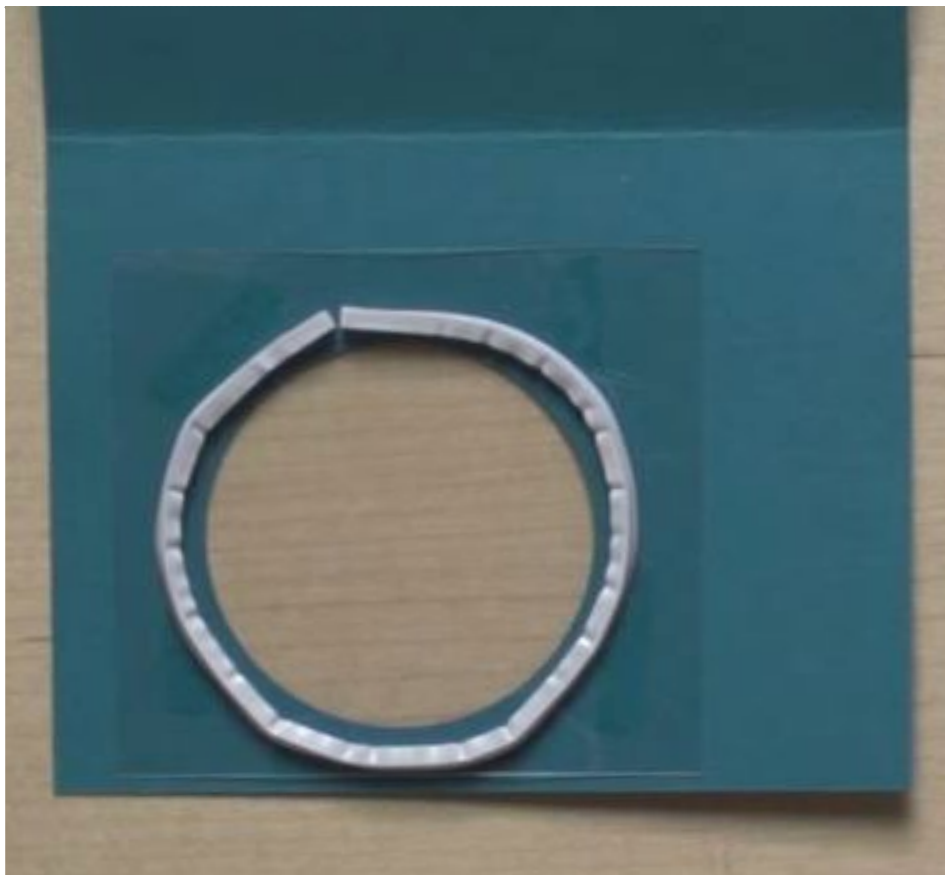

**DETAILS:** \* 300 dots  
\* Acid free

## FOAM STRIPS

Foam Adhesive Strips are double-sided adhesive foam that help create depth and dimension, create frames for shaker cards, and depth to let spinner cards spin.

**TO USE:** Remove from sheet. Place on paper in closed shape (square, circle, etc.) to create a frame for shaker cards. Add glitter or other “shaker” materials. Then

## FOAM STRIPS

layer under Window Sheet and cardstock layers.

Place on either side of the spaced cardstock gap that creates the track for spinner cards.

**BEST FOR:**  
Creating depth and dimension for small or narrow layers, shaker cards, and spinner cards.

**DETAILS:**

- \* 1/8" x 9" strips
- \* 10 yards total

# Adhesive & Materials Cheat Sheet
